

About Ohio Foot Solutions.

Ohio Foot Solutions is an exciting new concept that focuses on health and wellness. We are members of the Pedorthic Footwear Association (PFA) and have received extensive training in foot care. Our store specializes in comfort shoes and all of those hard to fit sizes.

An estimated 25 to 30% of the people in the United States suffer from foot problems. With an Amfit scanner, we scan our customers' feet and make custom comfort foot inserts, as well as custom orthotics. We accommodate custom inserts or orthotics, as well as the hard to fit narrow and extra wide foot, with a line of extra depth shoes for work, dress, and play, allowing us to fit a person properly.

Stop by to view our excellent footwear and supplies, meet our specialized staff, relax with a foot message and have a computerized foot scan precisely map your orthotic & determine your own custom footwear needs.

Mission Statement

Ohio Foot Solutions provides for health and wellness in comfort and shoe selection. With specialized resources and wellness products, our primary focus is your comfort and health.

Our store is located just North of 70 on the Old Baltimore Rd., a.k.a. Route 256.
